

Rowood_{Ltd.}

Handmade Kitchens & Joinery

Delivering handmade quality joinery from the heart of the Cotswolds, that is guaranteed for life.

The finest British joinery

In this modern, mass produced era there are very few companies that use traditional methods and designs to make individual, top quality products that will last a lifetime and beyond. Rowood is one company that really does exactly that.

With over twenty five years' experience Rowood Limited has become one of Oxfordshire's premier specialist carpentry and cabinet making companies. We pride ourselves on our traditional British values when it comes to delivering a professional service and top quality products. Our customers pride themselves on having chosen unique, hand made items that they can enjoy for years to come. In this brochure and on our web site we have shown a few examples of our handiwork, a small selection to give you a flavour of the quality and diversity of what we can do. Based at Brize Norton the team at Rowood Limited have been creating unique bespoke furniture from sustainable timbers for many years. Producing products that are crafted to not only be functional, but also to look great. We always aim to provide a solution that transforms

our customer's idea in to reality and provides them with exactly what they need or want.

Everything we make is built to last and with you in mind. We want you to enjoy living with and using our products for many years to come.

Rowood – good with wood.

Our seal of approval

Made in Great Britain
and guaranteed for life

We pride ourselves on being one of a select number of companies who still work to the traditional values of well made British products. So proud that every piece of furniture is guaranteed for life and individually signed by the craftsman who made it.
